

Moving Candidates in ORC

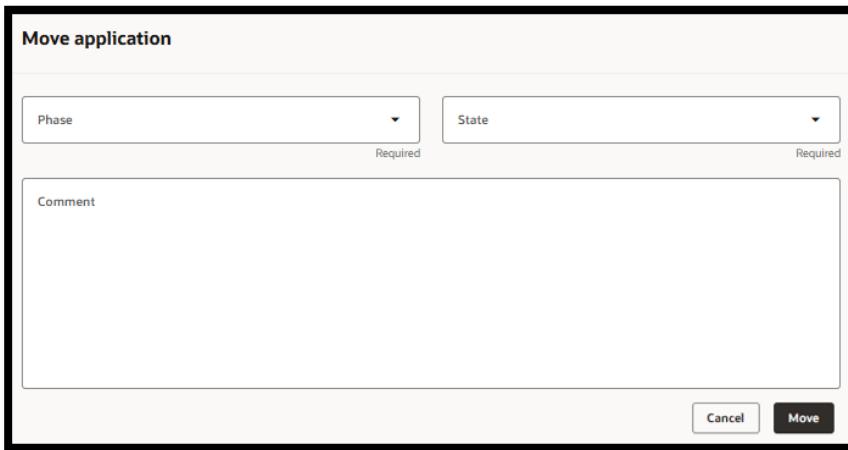

While reviewing candidates on a requisition, ensure you are reviewing their application/resume against the posted position requirements.

Throughout the candidate review, interview, and selection process, each candidate should be 'moved' through the recruiting process within ORC in real time. Follow the steps below to do so.

1. Click on the **••• menu** near the top left of the candidate's application to open the action drop down menu.
2. Select **Move Application** – this will open a new window.

3. Select the correct **Phase** and **State** via the drop-down menus to place the candidate in the proper step and then click **Move**. Enter relevant information in the **Comment Box**. (Example: This may include a scheduled phone call or interview, interview details, etc.)

The dialog box is titled 'Move application'. It contains two dropdown menus: 'Phase' and 'State', both marked as 'Required'. Below these is a large text area labeled 'Comment' with a placeholder 'Comment'. At the bottom are 'Cancel' and 'Move' buttons.

Please ensure you are only entering appropriate information in the **Comment** box.

Phase: This is used for marking the stage of the recruiting process the candidate is in – **Manager Review, Interview, or Offer**.

State: This is used to specify the status of the candidate in the recruiting phase. If after reviewing a candidate you are not interested, move their submission into **Manager Not Interested** status and provide a comment with an appropriate reason the candidate will not move forward in the recruiting process.

The table below presents each state and what it represents within each phase.
