

STANDARD INFORMATION

Standard Number: NSF 5

Standard Name: Water Heaters, Hot Water Supply Boilers, and Heat Recovery Equipment

Standard Edition and Issue Date: 2016 Edition Dated January 28, 2016

Date of Revision: January 28, 2016

Date of Previous Revision of Standard: 2012 Edition Dated August 8, 2012

EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

Effective Date: **January 28, 2020**

IMPACT, OVERVIEW, AND ACTION REQUIRED

Impact Statement: A review of all Listing Reports is necessary to determine which products comply with new/revise requirements and which products will require re-evaluation. **NOTE:** Effective immediately, this revised standard will be exclusively used for evaluation of new products unless the Applicant requests in writing that current requirements be used along with their understanding that their listings will be withdrawn on Effective Date noted above, unless the product is found to comply with new/revise requirements.

Overview of Changes: New requirement for water heaters to display efficiency rating. Specific details of new/revise requirements are found in table below.

If the applicable requirements noted in the table are not described in your report(s), these requirements will need to be confirmed as met and added to your report(s) such as markings, instructions, test results, etc. (as required).

Client Action Required:

Information – To assist our Engineer with review of your Listing Reports, please submit technical information in response to the new/revise paragraphs noted in the attached or explain why these new/revise requirements do not apply to your product (s).

Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.

STANDARD INFORMATION

CLAUSE	VERDICT	COMMENT
		<i>Additions to existing requirements are <u>underlined</u> and deletions are shown lined out below.</i>
		<i>New clause added;</i>
		Product Literature
7		Water heaters shall be provided with the efficiency rating used to establish compliance with national energy requirements which may be used to determine appropriate product applications. NOTE – Immersion type electric water heaters shall be considered to be 98% efficient.
CUSTOMERS PLEASE NOTE: This Table and column “Verdict” can be used in determining how your current or future production is or will be in compliance with new/revised requirements.
