

## STANDARD INFORMATION

**Standard Number:** UL 1370

**Standard Name:** Standard for Unvented Alcohol Fuel Burning Decorative Appliances

**Standard Edition and Issue Date:** 1<sup>st</sup> Edition Dated July 8, 2011

**Date of Revision:** March 25, 2016

**Date of Previous Revision of Standard:** January 8, 2014

## EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

**Effective Date:** **February 15, 2019**

## IMPACT, OVERVIEW, AND ACTION REQUIRED

**Impact Statement:** A review of all Listing Reports is necessary to determine which products comply with new/revise requirements and which products will require re-evaluation. **NOTE:** Effective immediately, this revised standard will be exclusively used for evaluation of new products unless the Applicant requests in writing that current requirements be used along with their understanding that their listings will be withdrawn on Effective Date noted above, unless the product is found to comply with new/revise requirements.

### Overview of Changes:

- Fuel capacity and test room size requirements.
- Additional requirements for fabricated enclosures.

Specific details of new/revise requirements are found in table below.

**If the applicable requirements noted in the table are not described in your report(s), these requirements will need to be confirmed as met and added to your report(s) such as markings, instructions, test results, etc. (as required).**

### Client Action Required:

**Information** – To assist our Engineer with review of your Listing Reports, please submit technical information in response to the new/revise paragraphs noted in the attached or explain why these new/revise requirements do not apply to your product (s).

***Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.***

## STANDARD INFORMATION

CLAUSE	VERDICT	COMMENT
		<i>Additions to existing requirements are <u>underlined</u> and deletions are shown <del>lined out</del> below.</i>
7	Info	<b>Materials</b>
7.4	Info	<b>Enclosure</b>
		<b><i>New clause added;</i></b>
7.4.5		The construction of fabricated enclosures shall be in accordance with reasonable concepts of safety, substantiality and durability. Component parts shall be secured against distortion, warpage or other damage and constructed so as to maintain a fixed relationship between essential parts under normal and reasonable conditions of handling and usage. Fabricated enclosures shall comply with the requirements in this section.
20	Info	<b>Marking</b>
		A combustion chamber shall also be marked at the back and sides in minimum 1/2 inch (12.7 mm) 1 inch (25.4 mm) high red letters on a contrasting background with the word "WARNING " and the following or equivalent statements: <u>These markings "Risk of fire. Minimum <u>a</u> air space clearance to insulation and building materials must be maintained."</u> This marking shall appear at each location on the fire chamber where clearance is required:
20.1.5		<p>a) <u>"Risk of fire. A minimum of <u>a</u> air space clearance to insulation and building materials must be maintained"</u>.</p> <p>b) <u>"Minimum Room size: <u>b</u> ft3 ( <u>c</u> m<sup>3</sup>)"</u>.</p> <p>c) <u>"For installation and use only in a manufacturer approved enclosure"</u>.</p> <p>Exception No. 1: A combustion chamber intended for installation directly upon and adjacent to combustible building construction is not required to be marked with the warning marking regarding clearances.</p> <p>Exception No. 2: A fireplace grate is not required to be marked with the warning marking regarding clearances.</p> <p>a Manufacturer's specified minimum clearance</p> <p><u>b, c Manufacturer's specified minimum clearance</u></p>
CUSTOMERS PLEASE NOTE: This Table and column "Verdict" can be used in determining how your current or future production is or will be in compliance with new/revised requirements.
