

STANDARD INFORMATION

This SUN establishes continuing certification for currently Listed UL 1610 certification reports.

Standard Number: UL 1610

Standard Name: Central-Station Burglar-Alarm Units

Standard Edition and Issue Date: 4th Edition Dated July 5, 2016

Date of Revision: July 5, 2016

Date of Previous Revision of Standard: 3rd Edition Revised March 20, 2015

EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

Effective Date: **December 1, 2020**

IMPACT, OVERVIEW, AND ACTION REQUIRED

Impact Statement:

- **December 1, 2020** is the effective date. New and revised products submitted for certification on and after the effective date will be required to be investigated to the latest version of the appropriate Standard in effect.
- Existing certifications will be allowed to continue to be certified after **December 1, 2020** provided there are no changes to the design that require a certification decision or until a new/revised requirement in the appropriate Standard is determined as "Action Required" to require a file review in the future.. For example, if changes to the design, ratings, or the use of alternate components requiring a certification decision are submitted after the effective date, the product (in its entirety) will need to be evaluated to the latest version of the Standard.

Overview of Changes:

- Single-path communications, alarm control unit
- Remote access to alarm panels, via smart devices and/or the internet
- Expansion of electronic media to include website

Specific details of new/revised requirements are found in table below.

Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.

STANDARD INFORMATION

| CLAUSE | VERDICT | COMMENT |
|--|---------|---|
| Revised Section 5 | | Expansion of electronic media to include website – Ref. paragraph 5.3. |
