

## STANDARD INFORMATION

**This SUN establishes Continued Certification for currently Listed UL 464 / ULC S525 listing reports**

**Standard Number:** UL 464

**Standard Name:** Audible Signaling Devices for Fire Alarm and Signaling Systems, Including Accessories

**Standard Edition and Issue Date:** 10th Edition, Edition Dated January 28, 2016

**Date of Revision:** January 28, 2016

**Date of Previous Revision of Standard:** April 16, 2012

**Standard Number:** ULC-S525

**Standard Edition and Issue Date:** 4th Edition Dated January 28, 2016

**Date of Previous Revision of Standard:** May 7, 2007

## EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

**Effective Date:** **January 1, 2020**

## IMPACT, OVERVIEW, AND ACTION REQUIRED

**Impact Statement:** On January 28, 2016 revisions were published to UL 464 in an effort to harmonize the requirements between the US and Canada. Intertek will be using the continuing certification approach when evaluating to the new and revised requirements.

- **January 1, 2020** is the effective date. New and revised products submitted for certification on and after the effective date will be required to be investigated to the latest version of UL 464 / ULC S525.
- Existing certifications of these products will be allowed to continue to be certified after **January 1, 2020** and not be withdrawn provided there are no changes to the design that require a certification decision or until a new/revised requirement in the appropriate Standard is determined as "Action Required" to require a file review in the future. For example, if changes to the design, ratings, or the use of alternate components requiring a certification decision are submitted after the effective date, the product (in its entirety) will need to be evaluated to the latest version of the appropriate Standard.

This Continuing Certification approach enables manufacturers to transition to new requirements based on their own schedule and their market demands. It will also allow manufacturers to continue producing equipment presently certified provided there are no changes made to the products or there are no modifications where compliance must be confirmed.

***Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your report.***
