

## STANDARD INFORMATION

This SUN establishes Continued Certification for currently Listed UL 873 Listing Reports and introduces UL 60730-1 as the superseding standard.

**Superseded Standard:** 873 (12<sup>th</sup> Edition) Temperature-Indicating and -Regulating Equipment

**Superseding Standard:** UL 60730-1 (4<sup>th</sup> Edition) Automatic Electrical Controls - Part 1: General Requirements

## EFFECTIVE DATE OF NEW/REVISED REQUIREMENTS

**Effective Date:** **October 19, 2018** (New or Revised products)

## IMPACT, OVERVIEW, AND ACTION REQUIRED

**Impact Statement:** After October 19, 2018, existing certifications to UL 873 12<sup>th</sup> edition can remain at the 12<sup>th</sup> edition unless a change is made to the product design. **NOTE:** Effective immediately, this revised standard will be exclusively used for evaluation of new products unless the Applicant requests in writing that current requirements be used along with their understanding that the following conditions apply.

### Overview of Changes: Continued Certification Approach

#### After October 19, 2018

- All new listing must be evaluated to **UL 60730-1 4<sup>th</sup> or 5<sup>th</sup> Edition.**
- Existing listings may remain at UL 873 12<sup>th</sup> edition unless:
  - A design change is made to the product that requires a certification decision or
  - A new/revised requirement in future may require action to be taken

#### After October 23, 2023

- All new listing must be evaluated to **UL 60730-1 5<sup>th</sup> Edition.**
- Existing listings may remain at UL 873 12<sup>th</sup> edition unless:
  - A design change is made to the product that requires a certification decision or
  - A new/revised requirement in future may require action to be taken

***Current Listings Not Active? – Please immediately identify any current Listing Reports or products that are no longer active and should be removed from our records. We will do this at no charge as long as Intertek is notified in writing prior to the review of your reports.***
