## Intertek Sustainability Disclosure Index

In line with our own standard on Communications & Disclosures, we deeply believe that total transparency with robust disclosures and relevant targets aligned to corporate strategy is integral for corporations to demonstrate sustainability accountability to their stakeholders.

The 2023 Intertek Sustainability Disclosure Index is complementary to our published reports and sets out how our latest sustainability disclosures map to our own Total Sustainability Assurance standards, the Global Reporting Initiative ('GRI') Standards and applicable Sustainability Accounting Standards Board ('SASB') requirements.

We are committed to providing our stakeholders with accurate and timely updates on our sustainability activities and performance and make every effort to produce reporting that is balanced and transparent and meets their needs.

We do this through our Annual report, Sustainability report, <u>our website</u> and by reporting against voluntary external indices.

We are pleased to share our Annual Report & Accounts in a unique, three-book format:

Book one – Strategic Report
Book two – Sustainability Report
Book three – Financial Report

These separate, but connected books, with their interconnected themes and narratives, allow us to present what we achieved in 2023 in a systemic, end-to-end framework. They have been designed to make it easier for our stakeholders to fully understand our business, how we bring quality, safety and sustainability to life, what we offer our clients and society, and the opportunities we have ahead of us.

### Our Sustainability Excellence strategy

#### Sustainability Excellence in every area of our operations

Our Purpose is bringing quality, safety and sustainability to life and our Sustainability Excellence strategy is fundamental to our business. We ensure we create positive impacts through the work we do for our clients and we make progress on our own sustainability agenda by engaging our colleagues in our ever better journey.

We do this through implementing detailed site-by-site action plans, accurate sustainability performance measurement and strong governance. We hold ourselves to account in line with our own TSA standards, international best practice, the expectations of our stakeholders and future regulations.

### Intertek TSA Corporate Certification standards index

The table below illustrates how we have applied the TSA framework to our sustainability disclosures and where specific information may be found.

|                              | Principles                        | Our response and where to find it  |
|------------------------------|-----------------------------------|--|
| Quality & Safety             |                                   | · ·  |
| 1.1 – Own<br>Operations      | Continuous Improvement<br>Process | Continual improvement is part of ISO 9001, ISO 17025 and other quality-related certifications, accreditations and approvals held by most of our operations. Performance is measured, recorded and benchmarked against established objectives as part of our disciplined performance management principles, supported by our Quality Management System. |
|                              | Equipment & Assets                | We have a framework and team in place to protect intellectual property, business services, personal information and customer data. Our Risk & Compliance team reviews the adoption and delivery of our Code of Ethics, including completion of training on the Code, and monitoring of activity including data privacy in all markets and functions.   |
|                              | Site & Facilities Management      | Our site & facilities management balances the needs of the organisation with worker health and safety ensuring workforce stability and core productivity.  |
|                              | Business Resilience               | Annual Report & Accounts 2023, Book one, page 60   |
|                              | Hazardous Materials<br>Management | Intertek produces relatively small amounts of hazardous and non-hazardous waste compared to other industries. We operate a number of waste management programmes across our regions. These programmes are focused on connecting our sites to local opportunities for minimising how much waste we send to landfill and to increase recycling.          |
|                              | Distribution and Logistics        | Not a material topic for Intertek. We are constantly looking for new and innovative ways to effectively deliver our services.  |
| 1.2 – Products &<br>Services | Product/Service Design            | Annual Report & Accounts 2023, Book one, pages 16-25   |

|                    | Principles  | Our response and where to find it   |
|--------------------|---|---|
|                    | Life Cycle Environmental<br>Impact                  | Not considered material to our business at this time.   |
| •                  | Customer Focus                                      | Annual Report & Accounts 2023, Book two, pages 18-25  |
| •                  | Incident, Product Withdrawal and Control Procedures | Not considered material to our business at this time.   |
|                    | Product Testing                                     | Effective procedures form an integral part of our testing processes.  |
|                    | Product Sustainability Validation                   | Not considered material to our business at this time.   |
|                    | Packaging   | Not considered material to our business.  However, where packaging is required (e.g. to return a tested product to a client) reasonable steps are taken to do so in the most sustainable way possible.  |
|                    | Product Societal Value                              | Annual Report & Accounts 2023, Book 1, pages 16-25  |
|                    | Product Pricing                                     | Across the many countries Intertek operates in, we are committed to acting and competing in a fair and open manner in the marketplace. As such, we strive to present the Company accurately and avoid marketing our services in a way that is misleading.  Code of Ethics |

|   | Media Handling                                   | Our Corporate Communications & Public Relations team look after the Group's communications to the Group's corporate stakeholders. This includes communications to the Group's investors, the London Stock Exchange, financial media and the financial analysts that track and analyse the Group's financial performance. Internally, the team helps to support local country marketing teams with corporate data and advice where corporate communications to local stakeholders, such as financial media or government partners, are needed.  The media plays an important role in defining the way Intertek is perceived by its stakeholders. Our media policy sets out policies with respect to the public release of information by employees to the media, and how these requests are managed. |

| Waste management <sup>6</sup>         |       |       |
|---------------------------------------|-------|-------|
| Total waste (metric tonnes)           | 4,962 | 3,453 |
| Waste recycled/reused (metric tonnes) | 446   | 527   |
| Waste landfilled (metric tonnes)      | 4,516 | 2,926 |

- 1. Energy use disclosures now include all energy sources from mobile and stationary combustion. 2021 and 2022 were restated to allow for year-on-year comparison.
- Renewable electricity at site level is consumed from green tariffs, Energy Attribute Certificates ('EAC') and solar PV generation.
- 3. Energy from the fleet.
- 4. Gas and fuels used for heating and in testing.
- 5. UK portion of total energy use was 4% (2022: 5%).
- 6. Data covers 133 sites (2022: 135 sites) across the USA and Canada.
- Refer to our Basis of Reporting document for full details of scope. Available on our website at intertek.com/about/our-responsibility.
- 8. Our annual environmental reporting cycle ran from 1 October 2022 to 30 September 2023.
- 9. Employee Commuting emissions were restated in 2020 for the 2019 base year as a result of increased attention to detail and diligence in the data collection process.
- 10. Intensity ratios are based on the total of Scope 1, Scope 2 (market-based) and Scope 3 emissions (Business Travel and Employee Commuting) in line with our science-based reduction targets.
